EDUCATION

Bachelor of technology
Malla Reddy institute of technology and science
Computer science and engineering(Cyber Security)

Oct 2020 - July 2024
maisammaguda, telangana - 500043

PROJECTS

MITIGATING DDOS ATTACK IN IOT NETWORKS | python.

AUG - DEC

- The effectiveness of addressing Distributed Denial of Service (DDoS) attacks in Internet of Things (IoT) networks depends on various factors.
- These include traffic filtering and analysis, access control and authentication, rate limiting and content delivery.
- These strategies can vary depending on the specific IoT network's architecture, deployment scale, and the evolving nature of DDoS attacks.

CRYPTOCURRENCY PRICE ANALYSIS WITH ARTIFICIAL INTELLIGENCE | python,deep learning.

JAN - MAY

- Cryptocurrency is playing an increasingly important role in reshaping the financial system due to its growing popular appeal and merchant acceptance.
- Cryptocurrency, the dynamical features, uncertainty, the predictability of Cryptocurrency are still mostly unknown, which dramatically risk the investments.
- In this study, we use advanced artificial intelligence frameworks of fully connected Artificial Neural Network (ANN) and Long Short-Term Memory (LSTM) , Recurrent Neural Network to analysis the price dynamics of Bitcoin, Ethereum and Ripple.

TECHNICAL SKILLS

Languages: Java, HTML5/CSS3, JavaScript, React Native, SQL

Developer Tools: VS Code, Google Cloud platform

Technologies/Frameworks: Linux, GitHub

Tools/Software: MS Office, Email, Google Drive, Presentation

CERTIFICATION/SHORT COURSES

- Java Programming, **INTERSHIP STUDIO**
- CSS And JavaScript for Beginners, **UDEMY**
- python Essential 1, **CISCO CERTIFICATION**

LEADERSHIP

- Served as Team Lead in my project (Major)
- Establishing effective Communication between project manager and associates to enhance operations by 20%

LANGUAGES

- Telugu
- English
- Hindi
